

## Chain Glove Cleaner KHR-1

The chain glove cleaner KHR-1 is used to thoroughly clean and disinfect chain gloves using an integrated high-pressure pump with a performance of 160 bar/water pressure.

This reliably cleans and disinfects even extremely dirty chain gloves in max. 15 seconds. The high-pressure water spray is activated using a foot valve, and is automatically supplemented with a cleaning agent or disinfectant.

The machine is equipped with a canister holder and knife basket holder and can be delivered with up to 2 washing places.
