

EK400 – WRT

The entry control device EK 400 WRT is in its construction identical with the model EK 400 WR and only differs in the fact that the paper towel dispenser and the paper towel waste basket are replaced by the high-speed hand dryer HANDDRYER 2 which is integrated in the entry control device EK 400.

The integrated method of construction counteracts the possibility of contamination of the surroundings, since the splash water is diverted downwards through grating into the wash basin. The drying of the hands takes approx. 10 seconds. A multi-functional LED light simplifies the operation of the unit.

Option

- Pedestal for floor mounting
- Mounted on the left or right side

Technical data EK 400 WRT

Dimensions (WxDxH)	1200/1553 x 375/864 x 800 mm
Electrical connection	230 V/N/PE, 50/60 Hz
Power consumption	3,4 kW
Water connection	3/4" max. 43 °C
Water outlet	DN 50
