

EK400

The entry control device EK 400 guarantees a safe disinfection of hands through the tamper-proof two hand disinfection in connection with an - after successful hand disinfection unlocked - turnstile lock. The unit has a side-mounted canister holder and a multi-functional LED light, that indicates whether the unit is locked or unlocked. It can be either designated to be one-way only or at the press of a button go both ways.

Option

- Pedestal for floor mounting
- Left or right-mounted
- As automatic soap dispenser
- Mechanical turnstile
