

## EK800 - TWIN

The entry control device EK 800 TWIN is a two lane facility and guarantees a safe disinfection of hands through the tamper-proof two hand disinfection in connection with an – after successful hand disinfection unlocked – turnstile lock in both lines.

The unit has a side-mounted canister holder and in both lines a multi-functional LED light, that indicates whether the unit is locked or unlocked. It can be either designated to be one-way only or both ways.

### Option

- Ready for connection to a data collection device
- As automatic soap dispenser
- Exit with mechanical turnstile

### Technical data                      EK 800 TWIN
