

Boot Cleaning Machine STRM-H

The KF-STRM/H is designed for mechanical cleaning and disinfection of boot soles, along with manual cleaning of boot legs.

The rotating brush is activated through a button located on the handle, whilst the boot legs can be simultaneously cleaned with the hand brush mounted to the machine.

The cleaning of the soles and edges is achieved both quickly and efficiently.

The unit has an integrated dosage system for the cleaning agent.

240V supply

The machine is sensor operated.

Siphon, joints and gaskets and small parts are not included.

Technical data STRM

Dimensions (WxDxH) 700 x 540 x 1025 mm

Electrical connection 230 V/N/PE, 50/60 Hz

Power consumption 0,18 kW

Water connection 3/4" max. 43 °C

Water outlet DN 50
