

### Stainless Diamond End Side Drain Outlet

Introducing our Stainless Diamond End Side Drain Outlet suitable for all industries. Manufactured from 304 or 316 Grade Stainless Steel these drain outlets are fully welded and manufactured in standard sizes and positioned along the length of a drain channel, equipped with rodding eye access.

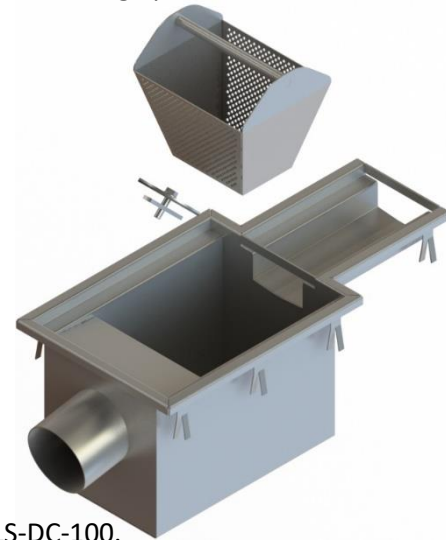

End Side Drain Outlets are suitable for hygienic environments for heavy load traffic and the design provides maximum drainage of water to the channel below, providing a robust surface.

The Drain Outlets are available in the following sizes:

- 2 Outlet Pipe Sizes: Ø110mm and Ø160mm
- 2 Channel Width Sizes: 100mm and 170mm

Specification:

- Body Material Thickness: 2mm
- 1 removable basket for waste
- 50mm Water Trap
- O/D. 4"/ 6" OUTLET TUBE

Diamond End Side Drain Outlet LS-DESIO designed for use with our drainage channel LS-DC-100.
